

Ahmed Mahgoub

Technical Software Engineer

ahmedhosny282@gmail.com · LinkedIn · GitHub · Antwerp/Turnhout area, Belgium

PROFILE

I'm a software engineer. I build and maintain software for organisations, from the data underneath to the applications people use on top. I like understanding how a system really works before I change it, and leaving it easier to work on than I found it.

EXPERIENCE

Technical Software Engineer, Cegeka Sep 2025 – present

- Builds and maintains software for client organisations, working on both the data layer and the applications on top of it.
- Works mainly with C#, Java, Microsoft Dynamics and Azure.

Earlier jobs outside IT: counter clerk at bpost (2023 to 2024) and administrative assistant at City Council of Turnhout (2024).

EDUCATION

BSc in Business Information Technology, Häme University of Applied Sciences (HAMK) Aug 2024 – Dec 2025

- 'Double degree' programme
- Erasmus+ exchange programme
- Specialisation in web development and AI

BSc in Applied Information Technology, Thomas More Kempen University of Applied Sciences Sep 2022 – Jun 2025

- Member of the programme's student council
- Member of SIN (student association for hosting infrastructure)
- Member of ESN (Erasmus Student Network)

SKILLS

Languages	C#, Java, TypeScript, JavaScript, Python
Platforms	Dataverse, Azure, Docker, Kubernetes, Linux
Web	React, Next.js, Laravel, Spring Boot, Tailwind CSS
